

COMPANY PROFILE

BUILDING  
TRUST & RELIABILITY

A high-contrast, black and white silhouette of a construction crane against a light, warm-toned background. The crane's lattice structure is intricate, with a long horizontal jib extending from a vertical tower. The background shows faint outlines of other construction elements, suggesting a building under construction.

ABOUT

# ABOUT

**TRUST PRO Contracting** is one of the leading qualified Contractors in K.S.A, Directed by highly qualified, experienced and Technical Team. The company achieved its position in the core of contracting business in the Kingdom of Saudi Arabia over a short span of time through highly skilled team of workers and professional management.

In the last few years the company has advanced rapidly; and effectively accomplished numerous projects with different national and multinational companies and proved us a reliable contractor in various disciplines of engineering projects.

We are quality / time conscious contractor and have a proven track record of keeping the time cost factor as our main consideration.

To execute any relevant project, you may consider us.

# AREA OF ACTIVITY

TRUST PRO Specializes in civil construction , steel buildings, passive fire protection , concrete repair and waterproofing focusing on commercial, industrial, nuclear power and infrastructure sectors.

We have accomplished several turnkey projects of civil construction and provided a comprehensive construction services and core solutions to construction industry.

- We deliver our services in planning & estimation, design, construction and maintenance ensuring to carry out all scope of works with safe and cost effective methods to comply with quick, efficient and quality work.

# AREA OF ACTIVITY

TRUST PRO have a professional management and staff, qualified engineers and multidiscipline highly skilled and semi-skilled workers to accomplish the projects with professional approach in order to convince our clients with the quality work.

We fully support our employees incessantly to provide a quality service that meet the client objectives to obtain the changing and expanding future construction opportunities.

The background features a series of overlapping, semi-transparent rectangular shapes in various shades of beige and tan, creating a layered, architectural effect. A solid black horizontal line spans the width of the page, positioned just above the word 'VISION'.

VISION

# VISION

---

The core of our company is to act with integrity in all our interactions, to provide our clients with real value gained from our experiences in national and international markets.

Our vision is to maintain and develop our presence as a leading contractor company in the market, whose reputation built on trust that we provide our clients with high quality and efficient service through innovative applications of engineering capability and technology.

---

MISSION 

# MISSION

---

To provide a level of service that will exceed the expectations of our clients. Maintain the highest level of quality and allow our employees the opportunity to grow and prosper. To instill confidence with all parties by professionally managing all aspects of the project whether it is large or small.

# TRUST PRO SPECIALTIES

## 1 Passive Fire Protection

- 1.1 Steel fire protection systems
- 1.2 Fire stop system
- 1.3 Fire compartment walls
- 1.4 Fire resistant ceilings
- 1.5 Smoke extraction plenums
- 1.6 Fire and blast protection
- 1.7 Fire resistant steel duct
- 1.8 Cables fire coating
- 1.9 Concrete fire protection

## 2 Structural and Architectural Expansion Joint

- 2.1 Bridge expansion joint system
- 2.2 Seismic expansion joint system
- 2.3 Fire rated expansion joint system

## 3 Concrete Repair

- 3.1 Surface repair methods
- 3.2 Full-depth replacement methods

## 4 Water Proofing System

- 4.1 Roofing system
- 4.2 Steel & concrete tanks waterproofing

## 5 Industrial Flooring

# 1. PASSIVE FIRE PROTECTION

A Passive Fire Protection System works to slow the spread of fire and smoke through a building with the use of fire and smoke barriers to compartmentalize and contain the fire to a specific area. Those barriers can be fire rated walls, ceilings, and floors and they must be maintained to ensure the integrity of the Life Safety Fire Protection System of a building.

## 1.1.1 INTUMESCENT

Trust Pro intumescent systems offer the most versatile and cost-effective solutions for reliable fire protection steelwork.

## 1.1.2 CEMENTATIONS

Trust Pro are specialist applicators of a unique lightweight and cost effective mortar based system providing up to 4 hours fire protection to structural steel.

## 1.1.3 HYDROCARBONS

Trust pro hydrocarbon fire protection coatings range has been specifically formulated to protect steel structural elements from hydrocarbon fire exposure.

## 1.2 FIRE STOP SYSTEM

Trust pro is qualified to perform most contemporary firestopping applications. As a certified installer of all leading brands, Trust pro has built a reputation on high quality installations and responsive service.

### SERVICES

- Through Penetrations
- Slab Edge at Exterior
- Top of Wall Joints
- Vertical Joints
- Wall Terminations
- Finish Applied Firestop
- Expansion Joint Firestop

## 1.3 FIRE COMPARTMENT WALLS

## 1.4 FIRE RESISTANT CEILINGS

## 1.5 SMOKE EXTRACTION PLENUMS

## 1.6 FIRE AND BLAST PROTECTION

Trust pro provide a non-combustible low density calcium silicate board, used for the construction of fire resistant ducts, ceilings and walls.

Also trust pro provide a unique, high performance composite fire panel with highly blast, impact and moisture resistant. designed to be load bearing.

## 1.7 FIRE RESISTANT STEEL DUCT

## 2. STRUCTURAL & ARCHITECTURAL EXPANSION JOINT

### 1 Bridge expansion joint system

Trust pro provide a system features sealing performance significantly greater than any acrylic impregnated predecessor. In addition, it is odorless, clean handling, UV stable, non-staining, and features low temperature flexibility not previously available in asphalt, wax, or isobutylene-based predecessors.

### 2 Seismic expansion joint system

Trust Pro provide a system with comprised of silicone and impregnated - foam hybrid components that ensure water tightness, absorb sound, dampen vibration, Traffic durable.

### 3 Fire rated expansion joint system

Trust pro provide a system with features dual-sided silicone sealing surfaces adhered to a fire-retardant impregnated foam backing and an intumescent bellows. Both sides of the expansion joint are water resistant and fire-rated.

## 3.1 Surface Repair Method

- Patching method
- Grouting method
- Shotcrete spray method

## 3. CONCRETE REPAIR

### 3.2 Full-depth replacement method

#### 3.2.1 Injection

Trust pro is one of the recognized leaders in the concrete injection technology, who has perfected the delivery of these systems over hundreds of projects. Some of the main grouting and injection solutions that we are involved with are:

- Cementitious Grouting
- Epoxy Injection
- Chemical Grouting
- Slab Jacking

#### 3.2.2 Cathodic Protection

Trust pro systems used to protect a wide range of metallic structures in various environments by using Cathodic protection which is a technique used to control the corrosion of a metal surface by making it the cathode of an electrochemical cell.

Trust pro is one of the market leader in the specialist field of waterproofing, offers systems for pile treatment, basement, roof and wet area waterproofing

### 4.1 Roofing System

4.2 Steel & Concrete Tanks Waterproofing

## 5. INDUSTRIAL FLOORING

Trust pro provide a high performance flooring that offers outstanding impact and abrasion resistant, corrosive attack, slip resistant surface and multi colored quartz flooring. Such works like car parking, workshops, sheds, stores, loading bay, ports, food beverage.

# TRUST PRO CONTRACTING & STEEL BUILDINGS

Trust Pro is the local contracting leader in the design-build construction of industrial and commercial facilities.

Structured in a decentralized way, the company is able to respond to its clients' needs in a very quick and efficient way. The company has built its reputation on the ability to offer design-build solutions for extremely fast-track projects.

## TRUST PRO TRADING

Trust Pro provide high quality, full service distributing of passive fire protection products. Trust Pro Trading section was established in reflection to the growing construction market in the KSA, our customers are construction companies, government, and private projects, and we cover all regions of the Kingdom of Saudi Arabia.

Trust Pro is improving its operations depending on the quality and suitability of services in industry, and building up a reputation of better quality service by providing complete technical support at competitive prices.
